Objective

Detail-oriented and analytical professional with a cybersecurity background and strong content validation skills, seeking a News Analyst role to contribute to high-impact data quality and decision-making. Adept at identifying patterns, ensuring compliance, and enhancing real-time content processing through data-driven insights.

Education

B.Tech in Computer Science & Engineering (Cyber Security), Parul University, Gujarat - Dec 2021 - Apr 2025

Intermediate (MPC - Math, Physics, Chemistry), Sri Saraswathi Junior College - 78.2%

Certifications

CEH - Cisco Ethical Hacker

Cyber Threat Intelligence - arcX

Cyber Threat Management - Cisco

Certified Email Authentication Specialist - Proofpoint

Integrated Compliance for Multi Regulations - ControlCase

ISO/IEC 27001 & 20000 - SkillFront

Oracle Networking Expert - OCI

Certified API Hacking Expert - The XSS Rat

Relevant Experience

Security Analyst Intern, TechDefence Labs, Vadodara | Dec 2024 - Jun 2025

- Triaged 200+ alerts for phishing, malware, and data anomalies.
- Conducted in-depth content validation of threat logs and documented incidents.
- Created dashboards and analyzed logs for correlation, anomalies, and root causes.

Cybersecurity Internship, Cyber Secured India | Apr 2025 - Jun 2025

- Performed real-time forensic analysis, system timeline auditing, and rule-based detection.
- Documented structured reports from content streams and endpoint investigations.

CTF & Forensics Training, TryHackMe | Feb 2024 - May 2024

- Completed 50+ challenges related to web abuse, file integrity monitoring, and behavioral analysis.
- Applied logical reasoning to detect and report false positives and escalation triggers.

Projects

News Log Monitoring System with SIEM (Wazuh + AbuseIPDB)

- Built a pipeline for real-time monitoring and validation of anomalies in event streams.
- Emphasized noise filtering, policy tagging, and accuracy-driven alert triaging.

Dumpa Krishna Reddy - Resume

Voice Assistant with Security Intelligence (IEEE Published)

- Integrated NLP and security logic to parse, validate, and log interactions with classification.
- Simulated real-time misuse cases and applied response strategy logic.
